

# GDPR Policy Statement

The EU General Data Protection Regulation (GDPR) came into force on Friday 25 May 2018. It has taken four years to develop and is the most important change in data privacy legislation in two decades.

GDPR is an EU-wide regulation that replaces the current data protection laws in the UK. It has been designed to provide greater protection for personal data in today's digital world.

GDPR was implemented on the 31<sup>st</sup> October 2019 in the United Kingdom. It also applies to organisations who interact with citizens of other EU countries.

Crowded Space Drones, as a data controller and processor, complies with its GDPR obligations and is working to ensure privacy and responsible use of data for all our stakeholders.

## What TCMC Crowded Space Ltd is doing

TCMC Crowded Space Ltd is committed to adhering to all GDPR procedures. We have clear policies and processes in place to ensure we comply, and we will exercise responsibly our duties as a data controller and data processor.

We've updated our Privacy Policy and Data Retention policy to comply with the new regulation and these came into from 25 May 2018. Crowded Space Drones employees have been and continue to be trained to follow good practice in:

- ✓ Gathering information
- ✓ Storing information
- ✓ Providing evidence for audits
- ✓ Complying with all reasonable requests from individuals to find out about the information we hold on them

TCMC Crowded Space Ltd is continuing to review all data across the organisation and amending these documents to show how and when consent should be obtained. This will ensure consent from individuals is affirmative, freely given, specific, informed and unambiguous.

The option to opt out of marketing communications will always be available and included in communications with an individual outside of TCMC Crowded Space Ltd.

TCMC Crowded Space Ltd believes that privacy is a very important right for citizens and wishes to assure all the company's associates, customers and suppliers that we are working hard to ensure compliance in all areas of the business.

## Further information
